Ivkov

Geller

Fischer

Former World Champion Vassily Smyslov won the Capablanca Memorial Tournament in Havana, finishing a half-point ahead of Borislav Ivkov, Ewfim Geller and U.S. Champion Robert Fischer.

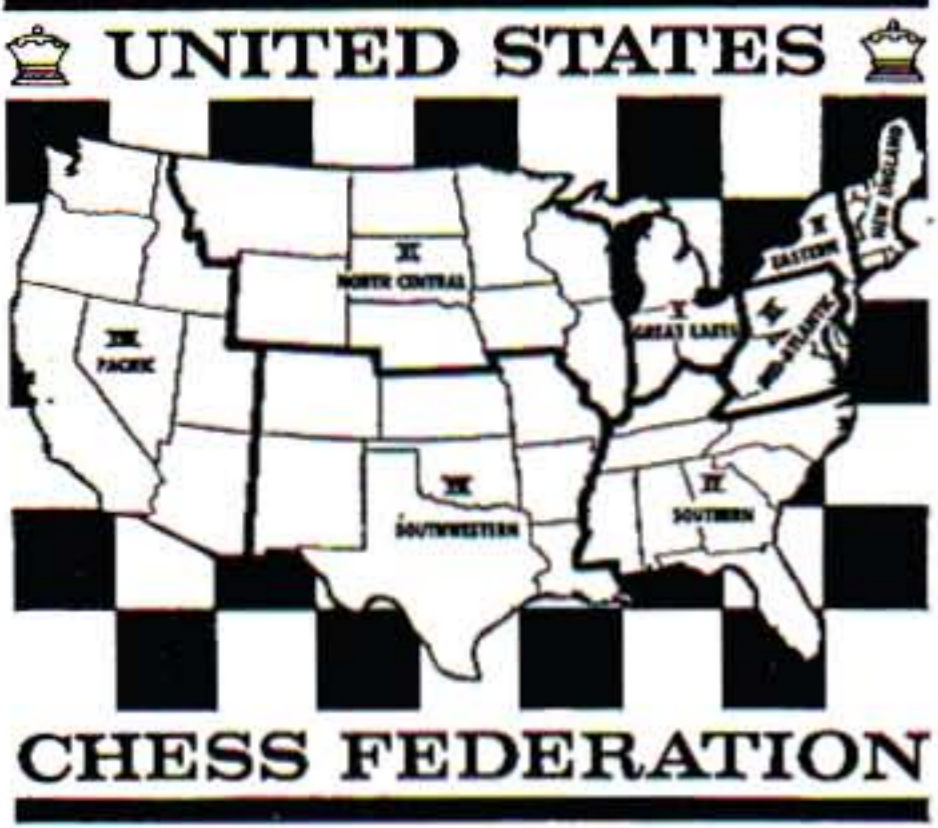

Ivkov, who seemed to have the tournament clearly won, faltered toward the end and lost his last two games. A time-pressure blunder against last-place Gilberto Garcia in Round 20 provided the tournament's biggest upset. Ivkov lost his final game against Karl Robatsch as well, allowing Smyslov—in spite of three losses—to edge into first place.

Fischer, who played in the tournament by teletype from the Marshall Chess Club in New York City, produced some good games—including a victory over the tournament winner—but was clearly not in his best form.

J. R. Capablanca, Jr.—son of the famed world champion in whose honor the tournament was held—studies the position in Fischer-O'Kelly, Round Four.

A Triple Enigma

by ROBERT BYRNE

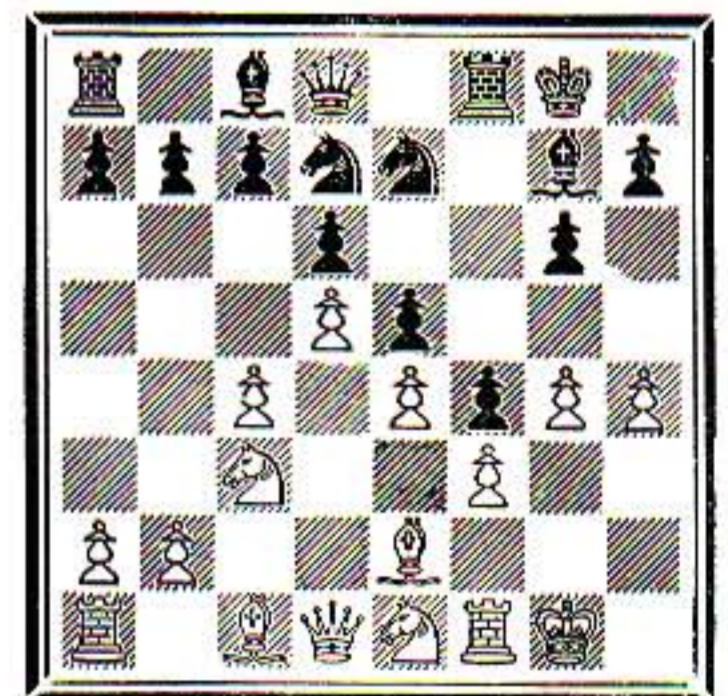

The first game of the recently concluded Tal-Larsen match, clearly Larsen's best performance of the series, presents one very important theoretical problem and two peculiar questions regarding the preparation of the combatants for the match. The theoretical problem concerns the proper way of handling the Black pieces against an Anti-King's Indian System that is subtle, strong and solid. Arising from this is the question as to why Tal persisted in adopting a defensive system which had already proven itself to be a failure. For the curious fact is that the first fourteen moves of the game had already occurred in Ray Weinstein—R. Byrne, U. S. Championship, 1963-64! I would certainly have thought that the convincing beating that Ray gave me would have deterred anyone from repeating my experiment. Can it be that Tal had not seen the game? If so, he badly needs a subscription to "Chess Life".

Lastly, there is the psychological problem as to how Larsen could manage to swallow his pride and adopt Weinstein's strategy after having delivered himself on various occasions of remarks on the weakness of American chess players. For, in this game, little more was required of him than that he faithfully carry out the American master's strategy—and that he does.

The key move to a rarely played but subtle and strong Anti-King's Indian System. First of all, in such a position as this, where White has an advantage in space on the Q-side (because of his advanced pawn on Q5), his proper strategy is to attack on that flank by means of B-K3, N-Q3, R-QB1, P-QN4, and P-B5. The one drawback to the plan is that Black can launch a very dangerous counter-attack on White's King by P-B5, P-KN4, P-KR4, R-B3, R-N3, N-KB3 and P-KN5. Experience has confirmed that Black's attack is at least as deadly as White's. Now, with these background considerations in mind, we can begin to understand the purpose of the text move. White is not altering his above-mentioned plan, but is merely postponing it while he stabilizes his K-side, denying Black any chances there. How does 11. P-KN4 work?

A. It effectively takes the starch out of 11., P-B5 by 12. P-KR4! which prevents Black from opening any file for action on the K-side.

After 12. P-KR4! (analysis)

Now White answers, P-KN4 with P-R5 and he answers, P-KR4 with P-KN5.

B. Should Black open the KB file immediately, he gives up all chance of getting the upper hand on the K-side himself, while White's chances on the Q-side are hardly diminished. For example, 11., PxNP; 12. PxP, RxRch; 13. KxR, N-KB3; 14. N-Q3, P-B4; 15. B-K3.

6. B-K2	P-K4
7. O-O	N-B3
8. P-Q5	N-K2
9. N-K1	N-Q2
10. P-B3	P-KB4
11. P-KN4

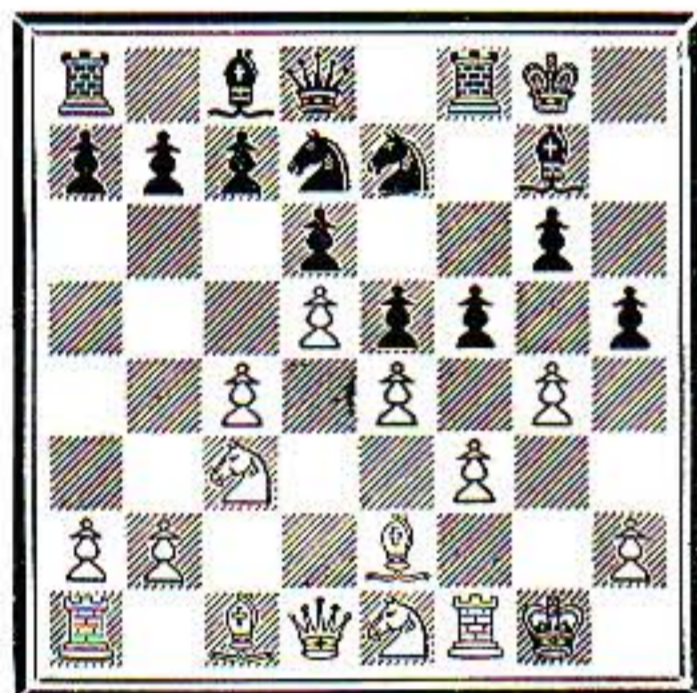

After 15. B-K3 (analysis)

Now White will get his Q-side attack going with P-QR3, P-QN4, etc., while the K-side remains dormant. It is true that White's advantage is small here, but the point is that he does have some play, while Black has none at all. In short, it is a position tailor-made to the requirements of a patient positional player.

C. The game continuation itself, to which we return.

11. P-KR4

This counter is a violent attempt to open up K-side chances for Black. After 12. PxRP? Black gets what he wants with 12., P-B5!; 13. PxP, NxNP. Nor is 12. NPxBP, PxP; 13. P-B4 sufficient for White—Black plays 13., P-R5 and will not be denied his K-side chances.

12. P-KN5!

White consistently pursues his plan of keeping the K-side closed.

12. P-R5?

Plausible though it seems, after my experiences with Weinstein and Tal's experience in the present game, this move has to be discarded. The idea is to cut off the White KNP from all support and win it, but this game demonstrates once again the fatal difficulties in the way of such a plan. It is a problem—as yet unsolved — how Black should proceed here.

13. N-Q3 P-B5
14. K-R1 K-B2

Tal is still following my ill-fated plan of the Weinstein game: R-R1, R-R4, N-KN1 and the White KNP must fall. But, with his next move, Larsen reveals the Weinstein strategy in an accelerated fashion.

15. P-B5!

Weinstein delayed this threat in his game with me for a few moves, but the effect was none the less powerful. If now 15., PxP, then 16. Q-N3! K-K1; 17. Q-R3!, P-N3; 18. P-N4! or if 15.

....., NxP; 16. NxN, PxN; 17. Q-N3, K-K1 and 18. Q-N5ch or 18. B-N5ch or 18. R-Q1 are all too much against the exposed Black King.

15. R-R1
16. Q-N3 P-N3

This is just about the most reasonable defensive try Black can make. He forces White to make up his mind as to whether to advance or exchange his BP rather than allow him to operate with both options.

17. PxQP PxP
18. Q-R3 N-QB4

Black tries to blockade his Queen's wing.

19. NxN! NPxN
20. P-N4!

But White pries it open anyway.

20. PxP
21. QxNP

Now the weak base of Black's pawn chain is once again exposed.

21. B-R6
22. R-KN1 R-QN1
23. N-N5 N-B1
24. B-R3 B-B1
25. Q-B4 B-K2
26. Q-B7 QxQ
27. NxQ R-R4

It is interesting that this game also reiterates Weinstein's concept of sacrificing the advanced White KNP if necessary in order to win on the Q-side.

28. B-KB1! BxB

Nor would 28., B-Q2 be any better. There would follow 29. N-K6! BxN; 30. PxBch, KxP; 31. B-R3ch, K-B2; 32. QR-B1, R-KR1; 33. R-B7, followed by KR-QB1, winning.

29. KRxB RxB
30. N-K6 R-R4
31. QR-B1

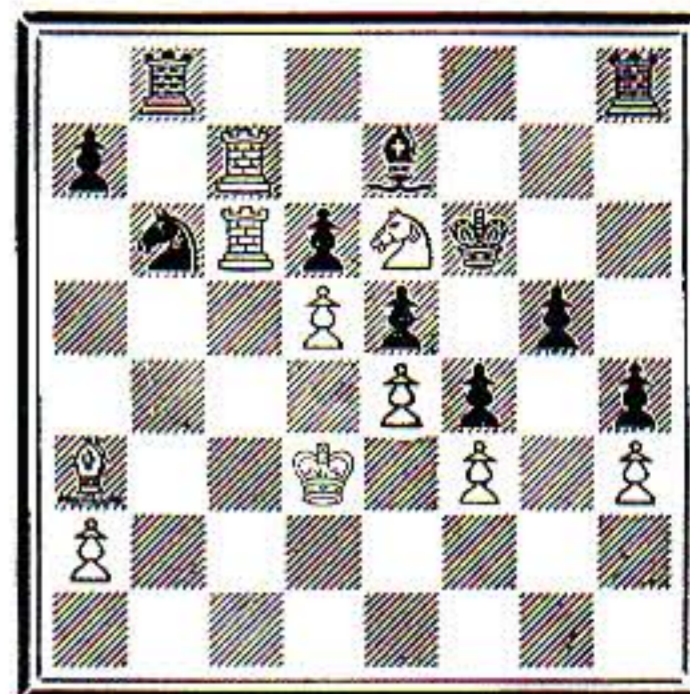

The coming penetration at QB7 will be decisive.

31. K-B3
32. R-B7 R-KR1
33. KR-B1 P-N4
34. P-R3 R-N1
35. R/7-B6

From here on to the time control, White does nothing. He doesn't have to hurry a thing, of course, since there is no way for Black to escape from the killing bind.

35. K-B2
36. K-N2 K-B3
37. K-B1 R-KR1
38. K-K2 R-N1

39. K-Q3 R-KR1
40. R-B7 N-N3
41. R/1-B6 Resigns

There is no defense. If 41., N-B1, then 42. N-B5, and if 42., R-Q1, then 43. N-N7 finishes. Or here, if 42., K-B2, then 43. N-Q7!, R-QR1; 44. NxPch!, PxN; 45. P-Q6 wins. Another convincing triumph of Weinstein's excellent strategy.

(The threat is 42. RxB!—Ed.)

Benko Tops Rockies

Grandmaster Pal Benko, though touched for a draw by USCF Expert Jack Shaw of Albuquerque, N.M., lived up to expectations and took a clear first in the 1965 Rocky Mountain Open. The tournament, played in Phoenix, Arizona over the Labor Day weekend, set a new attendance record by attracting 78 entrants.

Trailing Benko by half a point were Peter K. Cook, Almagordo, N.M.; Jack L. Gibson, Phoenix; and Hector Fabela, El Paso, Texas. Tie-breaking placed them second through fourth in the order listed. Paul Quillen, Los Angeles, Calif., placed fifth with 4½.

Class prizes were awarded as follows: "A"—John B. Kelly, Scottsdale, Ariz. (4½); "B"—David Anderson, San Diego, Calif. (4½); "C"—Stephen B. Rhodes, Luke AFB, Ariz. (4); "D"—Shields R. D. Draeger, Tucson, Ariz. (3½); Unrated—Dr. Frank J. Honsik, Phoenix (3); Women's—Mabel Burlingame, Phoenix (3½); Junior—Richard J. Mann, Phoenix (4); High School — David Brookerson, Albuquerque, N.M. (3½); Pre-High School—Daniel Ackerman, Los Angeles, Calif. (2).

The tournament was sponsored by the Phoenix Chess Club and directed by Col. Paul Webb.

Poschel Wins Michigan Open

Battle Creek was the scene of the 1965 Michigan Open and 79 players turned out for the title tournament over the Labor Day weekend. Winner, with an undefeated 6-1, was Dr. Paul Poschel of Ann Arbor. Dennis Gibson, Jack O'Keefe, Brendan Godfrey and Joseph Wasserman—all with 5½ points—finished second through fifth. The tournament was sponsored by the Michigan Chess Association and John Penquite was the T.D.

Breaking a Jinx

by Dr. ANTHONY SAIDY

This game has a background. Do jinxes exist? Some chess masters think so. Scientifically, I think not. If they do exist in a certain sense, they are the result of psychological, but nonetheless real, factors at work. It is the job of the scientific player to reduce such factors in his style to the minimum.

I approached this encounter with the dismal record of five straight losses to Bisguier, but Arthur had played well. He had never rewarded me with one of the horrendous errors that he permits himself to make on occasion. I had come 2000 miles from sunny Puerto Rico to miserable New York with a serious intent in this tournament. Therefore I was determined to win the following game, if given half a chance. Arthur gave me double that—at long last.

And what is the theme of this game? None of any theoretical importance—simply determination vs. lackadaisicalness. My talented opponent plays effortless chess—but he overdoes it.

SICILIAN DEFENSE

White: ARTHUR BISGUIER

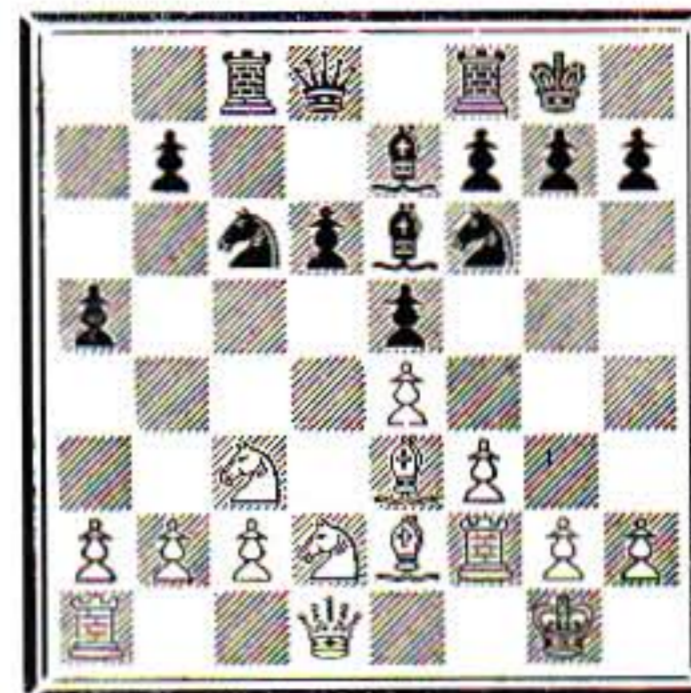

Black: ANTHONY SAIDY

1. P-K4, P-QB4; 2. N-KB3, N-QB3; 3. P-Q4, Pxp; 4. NxP, N-B3; 5. N-QB3, P-Q3; 6. B-K2, P-K4. The Boleslavsky Variation. I'd love to have a ten-cent piece for every time Arthur has played the White side of this and the Najdorf Variation. The typical moves are almost second-nature to him now—and he is not the sort to expend mental energy in familiar situations, like Reshevsky, Olafsson or myself (and who sometimes lose so much time thereby that they have to play moves 30-40 with the rapidity of brainless robots!) But such a casual attitude can be dangerous, as we shall see. 7. N-N3, B-K2; 8. O-O, O-O; 9. B-K3, B-K3. So far, so much book. 9., P-QR4 is a respectable alternative, representing an immediate attempt at counterattack, to disorganize White's Q-side position. Arthur probably would have answered it with 10. N-Q2, with the idea of N-B4-N6. I preferred the developing move 9., B-K3.

10. P-B3. 10. P-B4 is good, as is 10. B-B3, but I know that Arthur rarely plays these variations without P-B3. Here the move lacks sharpness. 10., P-QR4. Now the push is quite sharp; e.g., 11. Q-Q2?, P-R5; 12. N-B1, P-R6; 13. P-QN3, Q-R4 and Black has seized the initiative. Usual would be 11. P-QR4, but with, N-QN5 Black occupies a strong point with a very comfortable game and, P-Q4 in the offing. It should be pointed out that an immediate 10., P-Q4, the stock attacking move in the Sicilian, would lead to a rather equal endgame at this point: e.g., 11. Pxp, NxP; 12. NxN, QxN; 13. QxQ, etc. (Not 13. Q-B1? N-N5!; 14. P-B3, NxRP!); 11. N-Q2? This additional rote-inspired move is decidedly poor, since there is no time for N-B4 now. It congests White's piece position. Correct is 11. N-Q5 or even 11. B-QN5. 11., R-B1! Alas, now Arthur sees that 12. N-B4 is bad because of 12., N-Q5! and if 13. BxN, PxB; 14. QxP, BxN; 15. BxB, P-Q4! winning a piece because of the threat of 16., B-B4, winning the Queen. Similarly 12. B-QB4?, BxB; 13. NxB, N-Q5; 14. BxN (Black stands better on 14. Q-Q3, NxQBP! or 14. N-Q2, P-Q4); 14., PxB; 15. QxP, P-Q4; 16. N-K3, B-B4; 17. Q-Q2, P-Q5 and a piece goes. White has no good consistent continuation after his last move.

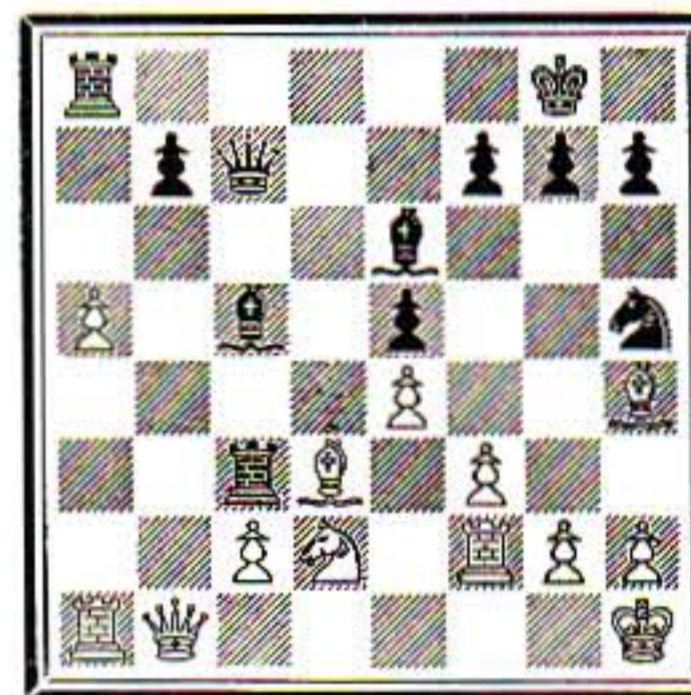

12. R-B2? But here is the innocent-looking move that loses the game, psychologically at least. Once again, it was

chosen because of the resemblance of this position to previous Sicilians where it was correct, e.g., Steinmeyer-Sherwin, Oklahoma City, 1956. Here, however, it critically aggravates the disorganized jumble of White's pieces initiated by his last move. Specifically, it makes possible a damaging pin along the KN1-QR7 diagonal, which Black proceeds to usurp forcefully. (Reshevsky suggested 12. B-B2 or 12. P-QR3).

12., N-QN5!, 13. P-QR3. It is no secret that Black's Knight is not going to retreat. White's move leads to forced material loss. But 13. B-KN5, P-Q4; 14. Pxp, QNxP; 15. NxN, QxN! is poor (16. K-R1, N-N5!). The way to maintain the balance for a while is to move the Rook right back to B1—and Bisguier's swallowing his pride in such a fashion is as likely as his joining the Union of Afghan camel drivers. At any rate, after 13. R-KB1, P-Q4; 14. Pxp, KNxP; 15. NxN, NxN; 16. B-B2, N-B5 Black stands very well, e.g., 17. B-N5, Q-Q4; 18. P-QB4, Q-Q6 etc. 13., P-Q4! The zwischenzug motif. Now 14. Pxp?, QNxP; 15. NxN, NxN; 16. N-B1, NxB; 17. NxN, B-QB4 would be hopeless for White. 14. PxB, P-Q5; 15. B-KN5. The point—the Bishop must leave the key diagonal. 15. N-B1, PxB; 16. NxP, PxB; 17. QN-Q5, BxN; 18. PxB, B-B4 would lose for White (19. Q-Q2, Q-N3). 15., PxB; 16. PxBP, RxP; 17. PxB (?) White proceeds to demonstrate how to make the worst of a bad bargain. While 17. N-N1, R-B1; 18. P-B3, PxB; 19. PxB, BxB would lose a pawn with an inferior position, 17. RxP, BxB; 18. RxKP!, Q-B2; 19. R-N5, B-QB4; 20. B-Q3 would settle for a pawn for the Exchange.

17., B-QB4; 18. B-R4, Q-B2; 19. B-Q3, R-R1; 20. Q-N1. A little better is 20. K-R1, BxR; 21. BxB, RxRP; 22. RxR, QxR; 23. B-K1 (Reshevsky), R-B1; 24. N-N3. 20., N-R4! So as to answer 21. K-B1 with, N-B5. There is no real hope for White. 21. K-R1?? Yes, this is one of those unaccountable days.

21., P-KN4! Now Arthur sees that a full piece is lost, for if 22. B-N3, then, NxB+; 23. PxB, BxR wins a full Rook for Black. Amazingly, he now commences to give deep thought to the game—for almost a half-hour! (I concluded that he was trying to remember what groceries his wife had asked him to get.) 22. R-B1, PxB; 23. Q-K1, P-R6; 24. P-N3, B-Q5; 25. R-QN1, RxRP; 26. P-B4, PxB; 27. PxB, NxP; 28. Q-R4, N-N3. 29. White Resigns. Arthur remarked that my breaking of our "jinx" signified that he would break his vs. Fischer. Such optimism is admirable.

CO-WINNER BRANDTS

Paul Brandts and Grandmaster Pal Benko each scored 6-0 in the Greater New York Open, which had a record turnout of 206 players.

Master Brandts is a former New York State and Manhattan C. C. champion. His last round game with Pinneo proved to be the crucial one and his unexpected 15th move was the key to success.

1965 Greater New York Open QUEEN'S GAMBIT DECLINED

P. Brandts J. Pinneo
1. P-Q4 N-KB3 3. N-QB3 P-Q4
2. P-QB4 P-K3 4. N-B3

Pillsbury's Bind, 4. B-N5, is played more frequently. The text-move has been favored by Lasker, Najdorf and others (including the writer). If 4. PxP, Black can avoid the Exchange Variation with 4., NxP.

4. B-K2

Against 4., P-B4, the Semi-Tarasch Defense, White answers best with 5. BPxP, NxP; 6. P-K3!

5. B-N5

Alternatives are 5. P-KN3, the Catalan System, and 5. P-K3.

5. P-KR3

With this and 7., P-QN3, Black adopts Tartakover's Defense, an old but generally satisfactory pattern.

6. B-R4 O-O

7. P-K3 P-QN3

Lasker's Method was 7., N-K5; 8. BxB, QxB; 9. Q-B2, P-QB3.

8. Q-B2

8. PxP is usually played first to prevent 8., B-R3.

8. B-N2

9. PxP NxP

Closing the QR1-KR8 diagonal would be illogical.

10. NxN

Or 10. BxB, NxB; 11. B-K2, N-Q2!; 12. O-O, P-QB4! with equal chances.

10. PxN

Better is 10., BxN.

11. B-N3 P-QB4

12. B-K2 N-Q2

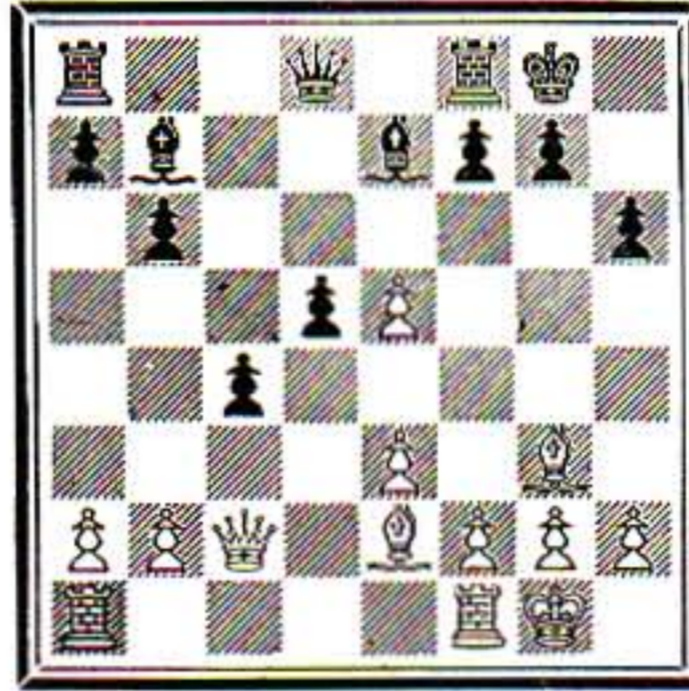

13. O-O P-B5

Black's plan is to utilize the Q-side pawn-majority. Preferable, however, is 13., R-B1 with a fluid center and piece-play.

14. N-K5 NxN

Had Black foreseen the reply to this he might have varied with 14., P-QN4 and 15., N-B3.

15. PxN!!

Quite unexpected, promising and lawless! Ninety-nine times out of a hundred the prosaic 15. BxN would be correct, here it would provide scant winning chances. But the pawn capture, while incurring doubled KPs, opens the Q-file for play against the weak QP and gives the KR a jumping off square at Q4.

15. P-QN4 18. P-R3 P-QR4
16. KR-Q1 Q-N3 19. Q-B5

17. P-QR3 KR-Q1

White provokes a weakness.
19. P-N3 22. P-KR4 P-R4
20. Q-B2 B-QB1 23. R-Q4 QR-B1
21. B-B3 B-K3 24. R/1-Q1 B-QB4

Too late. Q4 was only a stopping place for the Rook, not a destination.

25. R-B4 P-Q5
26. PxP BxQP
27. R-B6!

Threatening 28. B-K4 and 29. BxP.

27. B-KB4?

In a critical position and time trouble, Black makes the losing move. Better are 27., Q-B2 and 27., P-B6.

28. Q-B1!

With threats of 29. RxQ, 28. RxB, and 28. BxP.

28. Q-B4

29. R/6xB!

This sacrifice of the exchange enables White to get at the Dark Monarch with his Queen and Bishops.

29. PxR 33. Q-B6 R-Q4
30. Q-N5ch K-B1 34. BxP R-Q2
31. QxBP BxNP 35. B-B4

32. RxRch RxR
Threatening 36. B-R6ch and mate soon.
35. R-B2 39. Q-N7ch K-K1
36. Q-R8ch K-K2 40. Q-Q7ch
37. B-N4 R-B3 Resigns
38. B-N5ch P-B3

Or 40., K-B1; 41. B-R6ch, K-N1; 42. Q-N7 mate.

QUIET DISTURBED

After a quiet beginning, White obtains two active Knights for a Rook and two inactive Pawns. Infiltration and a mating attack follow.

15. P-K5 N-B4?

Again, 15., N-K1 is correct, for if 16. NxN, PxN; 17. BxP, NPxP.

A surprise move.

16. NxB

17. PxB! KxP

Not 17., NxQ?; 18. PxR=Qch, QxQ; 19. KRxN and White has a winning material advantage.

18. Q-Q2 NxB
