What's the Question?

by International Master Daniel Gurevich

Q: What are the weirdest rules in chess?

A: The basic rules of chess are simple enough. Except for the knight, all of the pieces move only in straight lines. There are only two players, and they take turns moving a single piece. To capture something, all you have to do is move your own piece on top of it. And there is no element of chance in chess: what you see is what you get. This simplicity is a huge part of what makes chess special—a game for everybody.

While a beginner can pick up most chess rules in a day, let us go beyond the basics. It is in fact possible to move two pieces at once, by castling!

You can sometimes take the opponent's pawn without moving onto it—remember about en passant.

And, well, if we move past just the rules and try to learn to always play the best move, that's a skill you can work on your whole life.

En passant is unusual, but is there something ... stranger? For casual players, the answer is no. However, some of the US Chess tournament rules are complicated and weird, and worst of all, important to know! They have cost many tournament players wins and draws, so we better take a closer look.

Have you ever started a game with the king and queen accidentally swapped? It's okay, it happened to me when I was already a 2100-rated expert! Eventually, you or your opponent notice it, and then you probably just swap them back and keep playing-that is what I did, too. What you are supposed to do, if it has been 10 moves or fewer from the beginning of the game, is go back and restart the game with the correct starting position. What if it has been more than 10 moves? This is the most bizarre part: the US Chess rules require you to just keep playing (and yes, you do lose the right to castle).

Here is another example. You have probably been told that, if either player has less than five minutes on his clock, both are allowed to stop recording their moves. That is not the whole story; this rule applies only if the game is in the final time control, also known as "sudden death." In a time control such as two hours for 40 moves and 30 minutes for the remainder of the game, until the second time control (in this case, for the first 40 moves), you are not allowed to stop notating. The weirdest thing? If you do stop and you are missing more than three move pairs (White and Black's moves), your opponent is even allowed to let his time run out without losing! This is exactly what happened to me in the same tournament as the previous situation.

Now, pay close attention, as the next rule is probably the one that players most often get wrong. How exactly do you claim a draw by three-fold repetition? Most people try to do it when the

I belonged to chess clubs when I was young. I got to learn a lot from older players who taught me some "tricks" that might come in handy. One of the tricks they taught me was about rook pawns (a- and h-pawns, for you readers) in the endgame.

Just yesterday, one of my third grade students who had been playing for years told me he didn't know that a king and rook pawn vs. a king was a draw. That's why I asked the question! What those club players passed along to me a long time ago, I would like to pass along to you because, more than once in my chess life, positions like these actually happened!

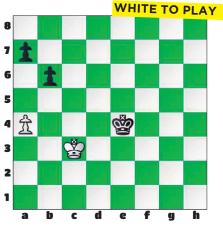

When I was a young chess player, I loved to play gambits. As I progressed, my opponents got stronger, and I often found myself just a pawn down with no attack. I learned how not to lose! I knew every king and pawn ending I could find so I could prevent my

opponent from Using his pawn advantage.

We are going to look at positions where you will be in a tough position, but you can save yourself if you know how.

by Pete Tamburro

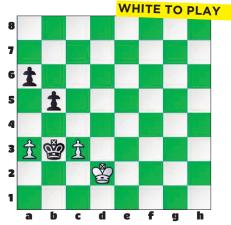

Hopefully, this will start you on the road to learning how not to lose. We will start with—you guessed it!—your being a pawn down.

Solution: You might initially think that moving your king over quickly toward the pawns will help, but it loses as you find that Black has lots of waiting moves to play and you have very few, and as a result your king gets pushed back: 1. Kb4 a6 2. Kc4 Ke5 3. Kc3 Kd5 4. Kb4 Kd4 5. Kb3 a5 6. Kb2 Kc4 7. Ka3 Kc3 8. Ka2 Kb4 9. Kb2 Kxa4 and it's an easy win for Black. However, the way to draw is by offering up your pawn: 1. a5! Kd5 (1. ... b5 2. a6! Kd5 3. Kb4 Kc6 4. Ka5 Kc5stalemate! Now that's a trick to remember!; 1. ... bxa5 2. Kb2 Kd4 3. Ka1 and the a-pawn can't be forced in to queen) 2. Kb4 Kc6 3. axb6 axb6 4. Kc4 (and you now should know how to defend this. As long as the opponent's king is not in front of the pawn, it's a draw) 4. ... Kc7 5. Kb5 Kb7 6. Kb4 Kc6 7. Kc4 (Maintaining the opposition. It's

helpful to remember that you want your opponent to check you with the pawn.) **7.** ... **b5+ 8. Kb4 Kb6 9. Kb3 Kc5 10. Kc3 b4+ 11. Kb3 Kb5 12. Kb2 Kc4 13. Kc2 b3+ 14. Kb2** (14. Kc1?? Kc3 and Black gets the opposition and wins.) **14.** ... **Kb4 15. Kb1 Kc3 16. Kc1 b2+ 17. Kb1 Kb3 Stalemate.** All the little side variations are important as well, so make sure you study everything!

For our next position, White seems to be in worse shape. The last problem was a pawn down position. In this one you're about to be a pawn down. How do you salvage a draw here?

Solution: It's all about the king and rook pawn versus king being a draw. You always have to be alert to that as White, in a real tournament game (!), resigned in this position rather than play these possibilities: 1. a4 Kxa4 (Taking with the pawn doesn't work: 1. ... bxa4 2. Kc1 a3 [2. ... Ka2 3. c4] 3. Kb1 a2+ 4. Ka1 Kxc3) 2. Kc2 Ka3 3. c4 b4 (3. ... bxc4 4. Kc3 a5 5. Kxc4 a4 6. Kc3 Ka2 7. Kc2) 4. Kb1 Ka4 5. Kc2 **b3+** (5. ... a5 6. Kb2 b3 7. c5 Kb5 8. Kxb3 Kxc5) 6. Kb2 Kb4 7. c5 **Kxc5** (7. ... a5? 8. c6 a4 9. c7 a3+ 10. Kb1 b2 11. c8=Q Kb3 12. Qc2+) 8. Kxb3—all drawn if White remembered this simple rule.

The King watched as a large tear rolled down his nephew's cheek. "Are you not well?" he asked. "Should I call for the physician?"

"No, Your Majesty," the young boy sniffled. "I lost another chess game to my sister. I always lose to her." He hung his head.

"I see," said the King, gravely.

"I am sure there is a way to fix this situation," said the King's friend, entering the room.

The nephew brightened. "You are the King. You can command her to lose to me. That would make everything better."

The King hid a smile behind his hand. His friend swallowed a giggle.

"That is one possibility," the King said. "You could also decide never to play her again—so you would never lose to her again. Would that work? In fact, if you never play anyone ever again, you will always go undefeated."

The boy wrinkled up his nose at the suggestion. He liked playing chess. "How do you deal with losing?"

The King coughed loudly, as if something were caught in his throat.

"His Majesty—if he were to ever

lose a game, which I doubt he ever has—probably has many ideas how someone else could better his game.

"You could talk with your opponent after each game" she continued, "and see what advice she has: where you did well, where you could have made a better choice.

"You should keep playing against your sister, and many others, too, as practice will help you improve.

"You could watch others play, and guess how they will move, and learn from their wins and losses.

"You could work with a chess teacher or read one or two chess books."

"All very wise suggestions," said the King, who had found his voice again. "Getting better at anything takes time."

"I must be very childish, crying over a chess game," said the nephew.

The King put his arms around the boy. "When you feel hurt, you

cry. That is normal. You love chess, and losing hurts. That means that chess is important to you."

"Your tears are not the end," said the King's friend, kindly. "They are only the beginning. Working hard at something shows that you value it. Keep at it."

The boy smiled. "If I keep playing chess with my sister, and she keeps telling me what I could do better—she might be teaching me how to beat her!"

With that, he skipped out of the room.

"Working hard at something shows you value it."

by NM Atulya Vaidya

THE PIECES

Working Together

Knights, especially, have the ability to work together with any other pieces with devastating effect. This is mainly because of the knight's unique attacking ability. The following six puzzles are all White to move, with the knight working with a rook to deliver mate.

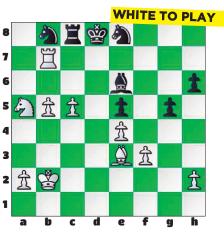

Solutions on page 18

My chess friends, who know me primarily as a correspondence player, were shocked that I played last month in the U.S. Amateur Championship. They and I are very pleased that I tied for first place. In an age when young people are competing so very well in every tournament, it was much fun to show that we older folks can still play well from time to time.

My second round game against a 10-year-old young man ended in a pretty mate. Here's the finale:

As you can see, Black's king cannot move, but White's rook on b7 blocks the nice mate with Nb7. by Jon Edwards 10th United States Correspondence Chess Champion

So I played **30. Rh7**, threatening Black's h6-pawn but more importantly threatening Nb7#. I do not know if my opponent simply missed the mate, but the game ended quickly after **30. ... g4 31. Nb7#**.

In honor of my victory, I have assembled a quiz in which each position involves a mate from a knight. All are mates in two moves. Just remember: You Can Do It!

Quiz #3

Quiz #6

Quiz #2

Quiz #4

In the June 2016 edition of *Chess Life Kids*, we looked at some examples where a player temporarily sacrificed a piece having calculated a way to regain the material back in a few moves.

#3

Can you find the temporary sacrifice that works in these positions?

Chess is Important to me because...

The Antelope Valley (AV) Chess House and its non-profit, Say Yes to Chess, provide classes, clubs, camps, workshops, and events for all ages and skill levels. One of our main goals is to have a chess program in every school in the Antelope Valley (Los Angeles County, California), including preschools.

One of the ways to do this is to have a contest, open to every K-8 student who resides in the Antelope Valley area. According to Director Daa Mahowald, 93 students took part in writing a short essay, "Chess is important to me because ...".

First place won five 45 minute private lessons.

Second place won a chess clock.

Third place won a tournament quality chess set.

Honorable mention received a certificate, and everyone else won the admiration of parents and teachers, for their thoughtfulness and effort.

There were three categories: K-2 (50 words), Grades 3-5 (100 words), and Grades 6-8 (140 word minimum).

The Winning K-2 Grade Essays

1st Place, K-2 Curtis Pearson, Noah's Ark

Chess is valuable because it helps me to get smarter.

Learning to play chess benefits me by helping me to spend time practicing to get better. My favorite time playing chess is when I play my sister at home.

We have a lot of fun playing against each other. 2nd Place, K-

2 Sean Hall, iLEAD Chess is

Chess is valuable

because of its learning benefits. Some benefits gained from learning and playing chess is it helps with math, thinking and reading.

A positive experience I had from chess was at my first tournament and I contributed to my team in winning our team

trophy. This is why I love chess.

3rd Place, K-2 Brodie Rosing, Behtel

Chess is

valuable because its fun. Chess also helps me think before I act. Once when I played my aunt in chess and she didn't remember how to play, I taught her then I beat her. She also told me I was very good for my age. It made me happy to hear that.

Honorable Mention: Akanei Casuncad, Vivian Thompson

The Winning 3-5 Grade Essays

1st Place,3-5 Athena Adams, Cottonwood

Chess is valuable because it helps you with patterns, it

helps you with reading, it also helps you with thinking beforehand.

A benefit that I gained was that it helped me become quicker. Another benefit that I gained from chess is that it helped me beat my aunt in chess and in far more things.

A positive experience is that I got to show my baby cousin Jezreal how to play chess.

Another positive experience is that someone asked me "I forgot how to play chess" and I was able to explain it to her and that made me happy.

2nd Place, 3-5 Euan Dandurand, Gorman

Chess is a game that helps you with math, problem solving, and it improves your reading skills. It also helps you improve your memory.

Chess is valuable because it teaches you good sportsmanship. In chess you must have good sportsmanship. Some examples are: not crying when you lose a game, saying good luck when you begin a game, and not boasting when you win a game. I got to practice these skills at the Super States tournament in April. It was two days long! I didn't win, but I still had fun. Even when you lose a game you can still learn something and get better.

3rd Place, 3-5 Nelida Willis, Dos Caminos

Chess is valuable because chess teaches you stuff and it is

good when chess teaches you. I gained friends, smartness, and help from learning and playing chess. When I first started to play chess I started when I was seven years old on New Years; it was so awesome. Now I am nine years old, about to turn 10 years old this year and the experience I had from chess is that I had more fun playing it, and I want to play it more and more and now I want buy everything (!) of chess and I love playing chess. I have friends in chess, I am real good at chess and I have chess on the computer and my computer always wins me. I always say "It not fair because it is smarter than me" and then someone always says "No its not you, just have to work hard" and that helps me and I love chess

and I am in a chess club and I am cool/good.

Honorable Mention: Dash Danderand, Marnecia Mann

The Winning 6-8 Grade Essays

1st Place, 6-8 Vicky Lizardi, Ocotillo

Chess is valuable because it has helped me with part of

my young life. It has helped me gain valuable things, and here are a few reasons why.

The first reason is that it helped me gain confidence. I learned that I shouldn't be afraid to go against other people. This has also helped me with performing in front of other people. I've learned that if someone beats me, it doesn't mean that I'm not a good player. This is how chess has made me realize that I'm never not good enough.

The second reason is about knowledge. I am smart. I have a 3.67 GPA and chess lets me use my smartness. The only thing that is different is that it helps me gain knowledge that I never knew I could have before. It has also helped me by teaching me how to think ahead of my actions. This was another reason how chess has helped me in life.

My final reason is that throughout the school year, I have met and got close to many people. I am so glad that I have met so many amazing people. I will never forget all the memories we have all created here. This is an important part of chess and my personal life. This is the final reason about why chess is important.

2nd Place, 6-8 Mareion Mann, Piute

Chess is valuable because it helps you with math and sharpening

your reflexes, thinking, using patterns, reading, planning ahead. The benefits I have gained is I have gotten smarter and better at math and chess plus I got better at thinking and lots of other stuff like thinking, math, reading and seeing patterns. A positive experience I had in chess was that my first time playing chess I beat my sister in four moves. Another experience I had was I met one of the best 1.000 men in chess and one of the best 100 women in chess. Another one I had was being a helper at a spectacular chess tournament and I was doing pretty good. I got to play a really good person but sadly I lost but it was still a blast of fun. I also played one of the people who won a trophy but I won him.

3rd Place, 6-8 Vanessa Hall, iLEAD

Chess is valuable because of the many benefits one can gain from learning

and playing it often. Chess improves reading, math, and thinking skills.

Chess allows you to identify patterns and plan ahead. Playing

chess often helps stimulate brain cells which prevents Alzheimers, and improves memory. Chess enables you to be able to think for yourself. Introducing chess to children at young ages makes math and reading comprehension easier for them to understand in the future. Playing chess allowed me to understand more complex situations, and also helped me to logically think.

A positive experience I've had because of chess was being able to win first place in a chess tournament. Winning a tournament instilled in me a new confiedence.

I love chess because of the benefits I gain every time I play, and just because how fun it is!

Honorable Mention: Theresa Hall

And with the 5th Annual Essay Contest "in the books," Antelope Valley kids were ready for a full schedule of summer activities: camps, classes, clubs, more contests, field trips, tournaments, workshops and just hangin' out!

Bravo Zulu Hosts the D.C. Citywide K-12 Scholastic Chess Championship

by Jim Doyle

On Saturday, June 18, the DC Citywide K-12 Scholastic Chess Championship was held at the Elsie Whitlow Stokes PCS. It was an unrated tournament consisting of five rounds with K-5 and 6-12 sections. This was the first year that the event was hosted by Bravo Zulu Chess, a local chess program led by Coach Shaka Greene that draws from four different schools and the homeschool community in the District of Columbia.

William Carter II, a rising seventh grader at DCI took first place and won \$300.

Emily Scherer, whose fouryear-old son, Luke, attends the school found out about the event in an e-mail and decided to register her two sons in their first tournament. She taught them to play chess only six months earlier but, "He comes to school every day and wants to play chess. He has three chessboards and his Star Wars chessboard is his favorite. He also has a play alone chess thing with drills. He takes that to the restaurant," she explains. Luke even taught his grandmother

how to play. What did Luke think of his first tournament? "Well, I wish if I like lose a piece, we can go again," Luke said. "Do you want to go to more tournaments?" I ask. "Yeah," he says with a demurred smile. His mother then asks, "Do you want to go outside?" Luke quickly answers, "No, I just want to play chess."

I asked his mother how Luke was dealing with losses at his first tournament? "We play a lot of games and he knows how to win and how to lose."

And that's a good start for everyone, not just a four year old! William Carter II

Luke Scherer takes the game seriously!

Play | Learn | Have Fun!

Did you know ... as a US Chess member, you can play chess online

So start enjoying ICC and REGISTER your account! THEN DOWNLOAD our playing software or simply login via our comfortable and easy web-based interface at: *https://play.chessclub.com*

Welcome to the Internet Chess Club (ICC), a world leader in Internet chess and a great place where kids can learn, play and improve their chess game! The ICC offers a wide variety of possibilities. From the basic rules and information about the game, all the way to practice drills, video lessons, private coaches, team tournaments and much more!

ICC is also SAFE! The ICC offers a special chat system, which only allows predetermined chat phrases like: "Nice move", "Good game", etc. You can rest assured your child will not be exposed to any unwanted chatter.

Chess Clubs, Coaches and Schools

If you're a school, chess club or coach, ICC now offers club packages! Package includes:

Complimentary ICC membership for up to 25 students/coaches for one year (Additional one year student memberships available at a discounted price)

- Teacher/Coach has access to all online offerings including:
- Online exercises for ongoing practice and training
- Review student's games online
- Have students participate in individual or group lessons
- Intra-school and team tournaments
- Over 2000+ free instructional videos
- Hundreds of online tournaments weekly
- Participate in official US Chess Federation online rating tournaments No download necessary to play! Just go to: *play.chessclub.com*.

ICC offers a child-safe environment with limited chat.

ICC FEATURES

- Over 2000 instructional videos and growing every week
- Multiple chess ratings to measure your chess strength
- Private lessons with world class chess coaches
- Many training tools and robots to perform drills and improve
- Chess tournaments
- Team events
- Kids safe accounts with limited chat capability
- and more!

Paying it Forward

A Chess Lesson at Fort Belvoir

On Wednesday, May 25, 2017, Bruce Till, a three-time Maryland state champion, was kind enough to volunteer his time to introduce chess to the soldiers and their families at Fort Belvoir during the USO's monthly family night

by Jim Dovle

and began playing at a chess club at 13. During that time, the 1972 World Chess Championship between Bobby Fischer and Boris Spassky was being held (a period known in chess circles as the "Fischer Boom" when interest in

dinner. Of the 190 people that attended. about 40 participated in the chess lesson that Bruce gave.

According to Wikipedia, Fort Belvoir was originally founded as a base during World War I and now has twice as many employees working there as the Pentagon, making it the largest employer in

Bruce Till learned chess at age eight from a 10-year-old neighbor

high for the first time in decades). He is a four-time Maryland Amateur champion (1989,

2002, 2003, 2012).

just a few weeks after Family Night at Fort Belvoir. He was a good friend, adversary and

In 2012, he won with

a perfect 5-0 score.

[Bruce passed away

chess in the U.S. was then teammate, spanning a period of 40 years. He told his son Chris that he enjoyed his experience at Fort Belvoir and the opportunity to give back to the chess community some of the joy he derived from his favorite hobby.—Editor]

US Chess Junior Grand Prix

2016 Junior Grand Prix Standings

EVENITO

Official standings for events received and processed by July 5, 2016 are unofficial and subject to change during the year or until year-end tabulation is complete. The top prize for 2016 will be a *Chess.com* one-year Diamond membership valued at \$100, a *Chess.com* gear/merchandise package valued at \$100, a US Chess plaque, free entry into the 2016 U.S. Open, and \$1,000 of expense money from US Chess to offset the trip. For the top five players on the overall list and to each state winner, *Chess.com* will also award a choice of a one-year *ChessKid.com* gold membership (valued at \$50/annually) or a one-year *Chess.com* Gold membership (valued at \$40/annually). US Chess gratefully acknowledges the participation of *Chess.com*!

Answers, We've got Answers.

Move The Pieces (from page 7)

#1 – 1. Qg8+!! (Due to the assistance of the rook, the smothered mate is successful) 1. ... Rxg8 2. Nf7#.

#2 - 1. Qxb7+!! Nxb7 2. Rxb7#

(Although Black has a mate in one, White's rook, knight, and bishop win first).

#3 – 1. Qxh6+‼ gxh6 2. Rg8#

#4 – 1. Rg7+! Bxg7 2. Ne7#

#5 – **1. Ne7+! Kh8 2. Qxh7+!! Kxh7 3. Rh3**# Anastasia's Mate

#6 – This puzzle is similar to one that occurred in the game Marshall-Napier (1898). **1. f8=N+!! Kg8** (if 1. ... Kh8 2. Ng6+ Kh7 3. Rh8#) **2. Ng6+ Kf7 3. Rf8#**

You Can Do It! (from page 8)

Solution #1: **1.** Qc7+ Nc6 (1. ... Qc6 2. Nb3#; 1. ... Kd4 2. Nb3# [2. Qb6#]) **2.** Nb3#

Solution #2: **1.** Qf7+ Kh6 2. Nf5# Solution #3: **1.** Nc4+ Kb5 2. Nc3# Solution #4: **1. Bb5+ Kb6 2. Na4#** Solution #5: **1. Qb5+ Ke7 2. Nf5#** Solution #6: **1. Ngf7+ Kc7 2. Nb5#**

CHESS DETECTIVE

(from page 9)

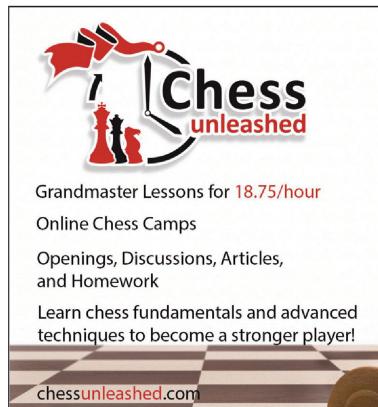

#1 – Black temporarily sacrificed his queen and recovered it a move later along with an extra knight by playing
23. ... Qxg3+! 24. Kxg3 Ne4+, White resigned.

This position is from a game in 1946 between Mikhail Botvinnik and Alexander Kotov in Groningen, Netherlands.

#2 – This position is from a blindfold game played between Michael Sayyah and ex-World Champion Boris Spassky while taking a morning walk during the 1987 American Open.

Spassky played 12. ... Rxg5! The game continued, 13. hxg5 Nd4 14. Qxb7 Nc2+ 15. Kd1 Nxa1 and Black went on to win.

#3 – Black temporarily sacrificed his

shed@gmail.com

queen by playing 33. ... Qxf1+! 34. Kxf1 Rd1+ 35. Ke2 Re1+ Skewering the king and queen. 36. Kd2 Rxe5 37. Kxc2 Re2+, White resigned.

This position is from a game between Joel Benjamin and Nick de Firmian in Denver in 1998.

#4 – White saw a winning position by sacrificing his bishop with 18. Bxf6 (18. Nd5 is also good.) 18. ... gxf6 19. Rae1 Be6 (Black has to give back the piece to survive a little longer.) 20. Rxe6 Bxc3 21. bxc3 a5 22. Qf3, Black resigned (Lots of moves work here.) (22. ... Kf7 23. Qe4)

Jan Cervenka was White against Jan Volek in this position from their game in 1996 in the Czech Republic.

#5 – Alexey Shirov played White in this game against Masha Klinova in 2006 in Gibralter.

Shirov played **11. Bxf7+ Kxf7 12. Qc4+ Ke7 13. Nh4 Nb6** (13. ... Kd8 14. Ng6 Rg8 15. 0-0-0 is better for Black, but White has compensation for the piece which he wins back quickly in many possible resulting variations.) **14. Ng6+ Ke8 15. Bxb6 axb6 16. Nxh8 g5 17. Ng6 Bc5 18. 0-0-0, Black resigned.**

#6 – Garry Kasparov played White in this game against Vladimir Kramnik in Novgorod, Russia, in 1994.

Kasparov shows why he was the world champion by playing the nice queen sacrifice 27. h5! Nxf4 28. hxg6 Qxd6 29. Rxh7+ Kg8 30. gxf7+ Kxh7 31. fxe8=Q Nxe6 32. Bf5+ Kg7

33. Qg6+ Kf8 34. Qxf6+
 Ke8 35. Bxe6 Qf8 36.
 Bd7+, Black resigned.

Tournament Life Announcements **AUGUST 15 THROUGH OCTOBER 14**

Scholastic Members:

As a service to you, we are listing upcoming National US Chess rated events, and requested events of possible interest to you. You can always log in to www.uschess.org, and click on "Clubs & Tournaments." Then click on "Upcoming Tournaments" for a complete listing of upcoming rated events and details. As always, you can check out the TLA section of Chess Life.

Organizers and Tournament Directors:

If you would like your tournament listed here in Chess Life Kids for October 2016 (events to be held after October 14), the deadline for submitting your announcements is August 10th. The deadline for the December 2016 issue is October 10th. The processing fee is \$1.00 per line for the first eight lines, \$2.00 for every line thereafter. Send your announcements to Joan DuBois, tla@uschess. org. Display advertising is also available. Advertising rates are posted on the US Chess website, www.uschess. org, or you may email: tla@uschess.org for complete details

ABBREVIATIONS & TERMS

ADL	
	ments are non-smoking with no computers allowed merwise advertised.
	Blitz rated.
QC:	Quick Chess events.
\$\$Gtd:	Guaranteed prizes.
\$\$b/x:	Based-on prizes, $x =$ number of entries needed to pay full prize fund. At least 50% of the advertised prize fund of \$501 or more must be awarded.
Bye:	Indicates which rounds players who find it inconvenient to play may take $\frac{1}{r}$ -point byes instead. For example, Bye 1-3 means $\frac{1}{r}$ -point byes are available in Rounds 1 through 3.
CC:	Chess club.
dx:	Time delay, $x =$ number of seconds.
+xx:	Time increment, $xx =$ number of seconds added after ecach move.
EF:	Entry fee.
Ent:	Where to mail entries.
FIDE:	Results submitted to FIDE for possible rating.
G/:	Game in. For instance, G/75 means each side has 75 minutes for the entire game.
GPP:	Grand Prix Points available.
HR:	Hotel rates. For example, 60-65-70-75 means \$60 single, \$65 twin, \$70/3 in room, \$75/4 in room.
JGP:	Junior Grand Prix.
Memb. req'd:	Membership required; cost follows. Usually refers to state affiliate.
Open:	A section open to all. Often has very strong players, but some eligible for lower sections can play for the learning experience.
Quad:	4-player round robin sections; similar strength players.
RBO:	Rated Beginner's Open.
Rds:	Rounds; scheduled game times follow. For example, 11-5, 9-3 means games begin 11 a.m. & 5 p.m. on the first day, 9 a.m. & 3 p.m. on the second day.
Reg:	Registration at site.
RR:	Round robin (preceded by number of rounds).
SD/:	Sudden-death time control (time for rest of game fol- lows). For example, 30/90, SD/1 means each player must make 30 moves in 90 minutes, then complete the rest of the game in an hour.
SS:	Swiss-System pairings (preceded by number of rounds).
Unr:	Unrated.
W:	Site is accessible to wheelchairs.
WEB:	Tournaments that will use a player's online rating.

It's Your Move!

Meet ROOK-E! Ten-year-old Izak Bulten of Florida sent in the winning entry, according to our judges. And we think it is a good choice.

> But we want to thank everyone who participated in the contest to name our chessbot, especially Asher, Mihir, Klaus, Sora, Owen, Renee, Maya, Ian, Brooks, Jake, Mihir (again!), Taiga, T.J., Sarah, and

> > Austin. We really enjoyed reading our mail!

According to Izak, not all kids are rookies (although we all start out that way), but ROOK-E brings to mind the rook (chess) and the

Disney/Pixar animation WALL-E (bot). And the judges thought that was a winning combination!

Everyone who entered will receive a small gift, courtesy of US Chess.

Well, it isn't always that easy. One of the first things you learn is the value of each piece (force) and if you lose too much force (even a pawn can be too much), you're likely to lose the game. And then you have to learn all about sacrifices! Sometimes you sacrifice

material for stuff you can't count, like space, or time, or king safety.

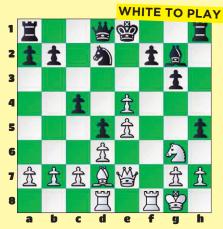

You have to learn to think outside the box. Normally, you wouldn't trade a one dollar candy bar for three 25 cent candies. But if you knew you could sell each candy for 50 cents, you'd make the trade in a second. That's how you have to think about sacrifices.

Have you played any good sacrifices lately? Send your game to ROOK-E, c/o

gpetersen@uschess.org or snail mail it to ROOK-E, c/o US Chess, P.O. Box 3967, Crossville, TN 38557.

We'll try to print them next issue. Meanwhile, you can consider the following position. What would you play as White?

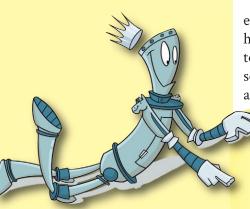

Talk it over with your coach, or your teammates. Move the pieces! When you think you have an answer and you can give us supporting analysis (include a few sample lines), send it to ROOK-E at the address above. We have some great book prizes for the best answers.

Question?

Continued from pg. 4

position has already repeated three times, which makes sense. But it's wrong. According to official tournament rules, if that happens, the opponent can treat the claim as a simple draw offer and decline it! The only correct way to claim a draw by repetition

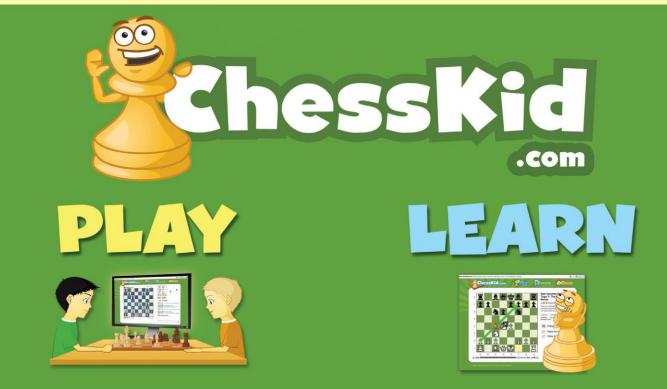

is to first write down on your scoresheet the move that leads to the third repetition, stop the clock (very important!), and call the tournament director to verify the claim. Do not actually play the move at any point! I once missed out on a half point by playing the move—don't make the same mistake I once made, as have many of my opponents.

I cannot emphasize this enough: these situations really do happen all the time in tournaments! So, as strange as some of these rules might be, my advice is to remember them all.

Got a question?

Send it to Daniel, care of gpetersen@uschess.org, or Scholastic Editor, P.O. Box 3967, Crossville, TN 38557.

Reigning World Computer Chess Champion

Komodo Chess 10

Komodo Chess 10

The new number one has arrived! Thanks to a host of extensive improvements and fine tweaking, the latest version of Komodo has again gained over 60 Elo points on its predecessor. The changes cover several areas: the evaluation function has been significantly sharpened, particularly with respect to king safety and endgame positions, and the search algorithm has been improved and optimized to run on multiple processors. Komodo 10 is also better at managing its time, and just generally calculates faster.

The result is an unbeatable combination - the strongest chess engine ever running on the best and most popular user interface around. As it comes with the Fritz 15 GUI, Komodo, as well as chess prowess, offers all the training and playing functions you know from Fritz, including direct access to the Chess-Base Web Apps such as Live Database, the ChessBase video portal, our tactics server and more!

Komodo's intelligent and results-driven evaluations have also proven extremely effective in practice and are reflected in the engine's playing style. If Komodo 10 considers its position to be advantageous, it avoids exchanges and seeks to open the position, but when defending a worse position, it strives to exchange pieces and block the position, in an attempt to push the game towards a draw.

It also recently demonstrated its exceptional playing strength in a series of matches against grandmasters, including the current world #6, Hikaru Nakamura. Komodo remained unbeaten in over 50 games in which it gave its human opponents a material advantage or several free moves (with the exception of only a few games in which the handicap consisted of two important pawns or the f7 pawn and three free moves) - Komodo even beat Nakamura 2.5 to 1.5!

This ultra-strong engine has won three of the last four TCEC championships, making it a multiple winner of the most prestigious prize in computer chess. What is more, at tournament time controls, Komodo is #1 in the majority of rating lists.

Komodo Chess 10 comes with:

- New 64-bit multi-processor engine

- Latest Fritz 15 64-bit user interface (optionally 32-bit)
- Premium membership for the all new ChessBase Web Apps and playchess.com (six months)

Komodo Chess 10 \$99.95

System requirements:

Minimum: Pentium III 1 GHz, 2 GB AM, Windows XP (Service Pack 3), 7/8, DirectX9, graphics card with 256 MB RAM, DVD-ROM drive, Windows Media Player 9 and internet access for program activation. Playchess.com access, Let's Check and updates.

Recommended: PC Intel i5 (Quadcore), 4 GB RAM, Windows 8.1/10, DirectX10, graphics card with 512 MB RAM or more, 100% DirectX10- compatible sound card, Windows Media Player 11, DVD ROM drive and internet access for program activation, Let's Check, ChessBase Live Database, Engine Cloud, Tactics Training and updates.
